

Finn Wilson-Devane

(902) 943-8930 | fwils062@uottawa.ca | 36 Robinson Ave, Ottawa, ON K1N 6B9 | [linkedin.com/in/finnwilsondevane](https://www.linkedin.com/in/finnwilsondevane)

QUALIFICATIONS

- Chemical engineering student at the University of Ottawa with three years of advanced Honours Chemistry laboratory training.
- Production engineering experience in upstream oil and gas, including leading an acid stimulation project and building chemical cost-optimization tools that delivered \$200K–\$400K in savings.
- Key interests in energy and advanced materials manufacturing.
- Fluent in English; intermediate-level Mandarin and French. Highly proficient in Microsoft 365.

EDUCATION

Bachelor of Applied Science, Chemical Engineering Expected April 2029

University of Ottawa, Ottawa, ON

- Transferred after three years of Honours Chemistry with credits retained, carrying advanced laboratory coursework in analytical, organic, inorganic, and biological chemistry.

PROFESSIONAL EXPERIENCE

Production Engineering Summer Student May – August 2026

Gran Tierra Energy, Calgary, AB

- Served as team lead for an acid stimulation project, coordinating planning, stakeholders, and execution to restore well productivity.
- Created chemical spending tools and trackers that identified and reduced costs, delivering an estimated \$200K–\$400K in savings.

Sales Associate and Bike Mechanic 2024 – 2026

Full Cycle, Ottawa, ON

- Leveraged in-depth product and technical knowledge to recommend ideal bikes and accessories, driving customer satisfaction and repeat business.
- Strengthened client relationships through regular progress updates and open communication, leading to smoother transactions and long-term loyalty.
- Facilitated in-store and community events through proactive planning and collaboration with staff and customers.

Lifeguard / Lifesaving and First Aid Instructor 2022 – 2024

YMCA of Greater Halifax/Dartmouth, Halifax, NS

- Instructed groups of 6–10 students in lifesaving techniques, promoting safety and skill development.
- Ensured patron safety in and around the pool, responding effectively to emergencies; performed routine bromine and pH water testing.

Waterfront and Canoe Director 2021 – 2023

Big Cove YMCA Camp, Halifax, NS

- Supervised a team of lifeguards to ensure the safety of all individuals on the waterfront.
- Served as primary first aid responder for the entire camp, providing immediate care and managing major medical incidents.
- Resolved interpersonal conflicts between campers and staff, maintaining a supportive, safe environment.

ENGINEERING SKILLS

- **Process engineering:** reading and interpreting process flow diagrams (PFDs) and piping and instrumentation diagrams (P&IDs); process design fundamentals.
- **Data and analysis tools:** advanced Microsoft Excel including Goal Seek for iterative process calculations; custom cost-tracking tools and spreadsheets for chemical spend optimization.

TECHNICAL LABORATORY SKILLS

- **Analytical chemistry:** flame atomic absorption spectroscopy, UV-Vis spectrophotometry, titrations and back titrations, standardized solution preparation, elemental analysis via calibration curves, Volhard determination of Ag⁺.

- **Organic chemistry:** reflux reactions, liquid-liquid extraction, recrystallization, thin-layer and column chromatography, reactions under inert atmosphere, handling pyrophoric chemicals, $^1\text{H}/^{13}\text{C}$ and 2D NMR, IR spectroscopy, mass spectrometry, melting point analysis, optical polarimetry.
- **Biochemistry:** assay preparation, SDS-PAGE and gel electrophoresis, DNA extraction, ion-exchange chromatography, enzyme kinetics (K_m , V_{max} , inhibitor constants, specific activity), dialysis permeability studies, serial dilutions, protein quantification by UV-Vis (Beer-Lambert law).
- **Inorganic chemistry:** small-scale copper roasting and leaching (copper cycle), periodic solubility trend analysis, spectrophotometric determination of nitrite and nitrate, synthesis of alum, synthesis and optical characterization of Alq3.
